Umair Ahmad
(Full Stack Developer)

Objective

Passionate software developer with experience in Django, React, and backend technologies like Django Channels . Skilled in building full-stack web applications, integrating APIs, and deploying scalable services. Seeking to contribute to innovative projects and continue learning in a challenging role.

Bachelor of Technology in Computer Science

Ajay Kumar Garg Engineering College| 7.01 SGPA

Intermediate

Montfort Inter College, Lucknow | 93.6%

10th

St. Xavier's High School, Azamgarh | 85.6%

PROJECTS**Social Media Application with Real-Time Features (<https://github.com/umair120115/Discuss---Social-Web-Application>)**

- Built a Django-React application that allows users to send friend requests, chat in real-time, and receive notifications.
- Integrated Redis and Docker to manage real-time communications effectively.
- Set up a chat system using Django Channels, ensuring smooth handling of WebSocket connections.

Interactive Calendar Application

- Created an interactive calendar in React that provides weekly and monthly views for scheduled events.
- Designed a backend using Django to manage event creation, updates, and deletions, with real-time updates in the frontend.

Web Scrapping (<https://github.com/umair120115/WebScrapping>)

- Selenium - an open-source, automated testing tool used to test web applications across various browsers is used.
- Data from website is extracted using automation with selenium python script.

KEY SKILLS

Languages: Python, JavaScript, HTML, CSS

Framework and Libraries: Django, Django Rest Framework, React, Redux, Numpy, Pandas, Matplot

Other Technologies: Django Channels, JWT Authentication, RESTful API's, Selenium

Tools: Docker, Git, Webpack, Nginx, VS Code, Axios

CERTIFICATIONS

- **Data Science with Python**| Infosys Springboard | July '24

ADDITIONAL INFORMATION

- **Languages:** English, Hindi
- **Interests:** Gardening, Trekking, Riding and Playing cricket
